Food Allergy Table – AFURI kara kurenai

● In accordance to the Food Sanitation Law, the 7 allergens required and the 20 allergens recommended are shown in this table.

● The information on this table is based on the checking of the raw materials of our ingredients. All products are cooked in the same kitchen using the same cookware. Therefore, it is possible that allergens may be transferred from one item to the other in the kitchen.

● Niboshi (boiled and dried sardines) used in our shop are collected by a fishing method that mixes shrimps and crabs.

●Every individual's susceptibility to allergens indicated or not in the table are all different. This table is to be used as just a reference. Please consult a specialist or refrain from eating any products if you are not sure.

●The information in this table is current as of June 25th, 2019. Items may change without notice due to product improvement and launch of new products.
